Workshop SpaceUP: Finance for Space-tech Scaleups

11.00 AM - 12.00 PM

The number of space and space-tech companies has been growing rapidly during the last few years, a positive trend that is due, in part, to the growing number of funding opportunities from private investors and public funds. However, the number

Day 2 / December 12th

of successful scaleups that reach unicorn status is still low.

How can we leverage public and private investment to facilitate the growth of space-tech scaleups? What is the current status of the funding ecosystem and what new tools could be implemented? Do we need new funding instruments to support space-tech scaleups in their journey towards IPOs or more mature stages?

Host: Eleonora Lombardi (**Industrial Policy and Technology Transfer Manager, FEA**)

Carola Theresia Paschola (*Managing Director, Opus1a*)

Marta-Patricia Aparicio y Montesinos (*Founder and Managing Director at Keymon Ventures*)

Marta Testi (*CEO at Elite*)
